

Authenticated Users →

1. Login

- As an authenticated user, I want to be able to log into the app because I want to be able to access other peoples posts/accounts as well as my own
- Tests:
 - a. Enter your information into the login page

2. See your profile

- As an authenticated user, I want to be able to see my profile page because I want to make changes, or just see the information stored there
- Tests:
 - a. Clicking on the profile page to see if we get sent there

3. See others profile

- As an authenticated user, I want to be able to see other people's profile page because I want to access the information stored or learn more about a person
- Tests:
 - a. Clicking on the profile page of another user to see if we get sent there

4. Be able to go to Home page

- As an authenticated user I want to be able to go the home page because I want to see posts other people have made
- Tests:
 - a. Clicking the home page button and checking if we get sent to the home page

5. Add comment

- As an authenticated user I want to be able to add a comment to an existing post because I want to show my support/disapproval of the idea presented by the user
- Tests:
 - a. Finding a post, writing a comment and then hitting the add comment button

6. Edit Comment

- As an authenticated user I want to be able to edit a comment because I may have changed my mind, or didn't explain my point well enough.
- Tests:
 - a. Hitting the edit comment button, changing the message and hitting submit to see if it changed my comment

7. Post a message

- As an authenticated user I want to post a titled message because I want to share my ideas with other users and see if others like my ideas
- Tests:
 - a. Typing a message, adding it to the table and seeing it in the app

8. Like other posts

- As an authenticated user I want to be able to like other posts because I want to show my support for the posts I like
- Tests
 - a. Hitting like on a post and seeing if the number of likes increase

9. Remove my like on a post

- As an authenticated user I want to be able to remove a like from a post because I want to show I changed my mind on the post
- Tests:
 - a. Hitting like button, after having liking it, and seeing if the number goes down

10. Use both devices to access the app

- As an authenticated user I want to be able to use both my devices to access the app because I want to use my phone and sometimes my computer to access the app
- Tests:
 - a. Opening the app on both your PC and smart device to see if it opens

Admin →

1. Add and Remove Tables

- As an admin I want to be able to add and remove tables because I want to be able to update and moderate the app
- Tests
 - a. Manual: Physically adding or removing a table
